ELEVATE

TRANSCENDING THE LANDSCAPES OF TECHNOLOGY

KERALA IT NEWSLETTER - MAY 2022

GEARING UP FOR THE FUTURE

The future, as we all know, leans heavily on technology. As days go by, we are realizing that the traditional model for IT management is no longer feasible in this new era. In order to keep up in the current digital age where changes and advancements happen at breakneck speeds, we are geared up for a future-ready IT vision. That means having the ability to not only identify upcoming trends but also putting in place the infrastructure and plans necessary to capitalize on them. What's more, an effective IT vision goes beyond just technology considerations. It must also take into account things like process improvement, people, culture, and business strategy. At Kerala IT we are taking giant strides to be at the top of our game.

Calm, green, and sustainable

Technopark, Trivandrum prides in being a Green IT park. Adding to the dash of greenery, the Rotary Club of Technopark installed a Miyawaki Forest on the grounds of the park as part of their continued efforts to make it greener and more sustainable. A total of 1,300 trees were planted on 20 cents of land. Dr Shashi Tharoor MP, Shri Kadakampally Surendran MLA and Kerala IT Parks CEO, Mr John M Thomas were among the dignaries present at the event.
